

I don't want the NO-CALL list u-serpt i never liked it when people called me when I got home from work and had sat down for supper and the stupid phone would start ringing off the hook. How would it be if I called your home during your evening meal or when you are trying to enjoy a little T.V. at night. Granted I can just unplug the phone but why when it is these stupid idiots calling me. I finally have some piece and quite do screw that up by letting these idiots start calling again.
